Aeon ANVG

Manual Gain Articulating Night Vision Complete Binocular

The Aeon ANVG represents a pinnacle in passive night vision technology – purpose-built for military, law enforcement, and professional users who demand uncompromising optical performance in the most demanding environments. Equipped with **green phosphor Elbit image intensifiers** and **mil-spec optics**, this articulating binocular delivers the clarity, flexibility, and ruggedness required for mission-critical operations.

Elbit Green Phosphor

Premium image intensifier tubes for superior contrast and resolution in complete darkness

Mil-Spec Optics

Military-specification glass and coatings engineered to perform under extreme field conditions

Manual Gain Control

Precise operator-controlled brightness adjustment for optimal performance across all light levels

Articulating Design

Independent inter-pupillary and diopter adjustment for a custom fit to every operator

Made with GAMMA

Performance Specifications & Key Features

The Aeon ANVG is engineered for operators who need dependable low-light and no-light performance. Every component – from the Elbit-grade image intensifier tubes to the precision-machined housing – meets or exceeds military standards for optical clarity, environmental sealing, and operational longevity.

Optical Performance

- Green phosphor Elbit image intensifier tubes
- High-resolution mil-spec objective lenses
- Wide field of view for situational awareness
- Manual gain control for precise light management
- Diopter adjustment per ocular for individual fit

Construction & Durability

- Mil-spec aluminum housing – lightweight yet combat-ready
- Articulating binocular bridge for custom IPD setting
- Ruggedized for shock, vibration, and environmental exposure
- Compatible with standard helmet mounts and J-arm adapters
- IR illuminator ready – supports low-light active augmentation

1

Acquire

Rapid target acquisition in zero-ambient-light environments using intensified optics

2

Adapt

Manual gain fine-tunes tube brightness instantly as lighting conditions shift

3

Articulate

Independent left/right tube adjustment ensures operator comfort during extended wear

4

Execute

Deliver mission-critical observation with confidence at every stage of the operation

Contact Adams Industries for Assistance

Adams Industries, Inc. is here to assist you with your Aeon ANVG night vision binocular system purchase. Our team of professionals is equipped to assist military procurement offices, law enforcement agencies, and qualified civilian operators with product information, procurement documentation, and technical support. With 30 years in the industry we are THE DEFINITIVE EXPERTS on night vision. Contact us today - we are always happy to help..
